

# Joshua Haughton

## FULLSTACK DEVELOPER

☎ (+1) 416-998-3238 | ✉ [itsjoshuahoughton@gmail.com](mailto:itsjoshuahoughton@gmail.com) | Portfolio: 🌐 [joshuahoughton.github.io](https://joshuahoughton.github.io) | 📄 [JoshuaHaughton](#) | 🌐 [joshua-haughton-5ba15a22b](#)

## Tech Stack

HTML5 · CSS3 · JavaScript ES6+ · Typescript · React.js · Next.js · Jest · Mocha + Chai · Node.js · Express.js · MongoDB · PostgreSQL · Firebase

## Summary

A highly motivated full-stack developer with a passion for designing apps that provide an exceptional user experience. Confident in using front-end libraries and frameworks such as React and Next.js, with experience utilizing back-end technologies and eagerness to acquire new skills. An enthusiastic collaborator with the ability to understand team needs and develop ideas to meet their objectives.

## Experience

### Moonbeam Trading Company

*Remote*

WEB DEVELOPMENT INTERN (REACT, NEXT.JS)

Mar. 2022

- Collaborated with others to develop a functional and responsive Next.js site from scratch for a small business.
- Learned and applied Server-Side rendering knowledge to optimize SEO, speed up load times, and enhance user experience.
- Led group discussions about other features to implement after completing work before deadlines

### STEER.us (Talent Development Agency)

*Remote*

WEB DEVELOPMENT INTERN (REACT, WORDPRESS)

Mar. 2022

- Performed bug fixes and React performance optimizations for multiple pages on the site.
- Updated CSS to provide a cleaner layout for users.

### Freelance Digital Marketer

*Remote*

DIGITAL MARKETING SPECIALIST

Jan. 2021 - Mar. 2022

- Created and managed Facebook Ads and Email Marketing campaigns for small-mid sized E-Commerce businesses.
- Researched customer psychology and the best ways to target customer desires/pain points for enhancing user experience.

### SportingLife (Retail)

*Ottawa, ON*

FOOTWEAR DEPT SPECIALIST

Dec. 2020 - Dec. 2021

- Positively greeted and communicated with customers and coworkers.
- Picked out specific shoes and boots best suited to each customer for their individual needs.

## Projects

### E-Commerce Website - Vinyl Fresh

REACT.JS, REDUX, TYPESCRIPT, FIREBASE · [DEMO](#) · [GITHUB](#)

Dec. 2021 - Apr. 2022

- A dynamic E-commerce app where users can browse and order vinyl records based on popular album covers.

### Movie Finder/Saver - Watchlist

REACT.JS, NODE.JS, EXPRESS.JS, MONGODB, TMDBAPI · [DEMO](#) · [GITHUB](#)

Dec. 2021 - Mar. 2022

- A media searching app, allowing users to find and save movies and tv shows to their watchlist, as well as rate them and check them off their list.

### Crypto Tracker

REACT.JS, NEXT.JS, REDUX, COINGECKO API, FIREBASE · [DEMO](#) · [GITHUB](#)

Apr. 2022 - May. 2022

- A Next.js app where users can find detailed information and chart data on their favourite Cryptocurrencies.

### LinkedIn Remake

REACT.JS, REDUX, TYPESCRIPT, FIREBASE · [DEMO](#) · [GITHUB](#)

Mar. 2022 - Apr. 2022

- A LinkedIn remake built to learn more about Redux and Typescript. Users can create an account, make posts, and view posts other users make in real-time.

## Education

## **Lighthouse Labs Bootcamp**

*Remote*

WEB DEVELOPMENT DIPLOMA

*Oct. 2021 - Jan. 2022*

- An Intensive 12-week Bootcamp which gave me a deep understanding of front-end/back-end languages, frameworks and programming concepts through many solo and collaborative projects.

## **Carleton University**

*Ottawa, ON*

B.A. IN PSYCHOLOGY (HALF-COMPLETE)

*Sep. 2019 - Sep. 2021*

- Completed 2 years towards degree; learned the customer psychology skills necessary to fully transition into digital marketing.
- Balanced learning while playing on the varsity basketball team; consistently practiced, collaborated and studied film with teammates to win a USPORTS national championship.
